| <b>Databases:</b>         | MySQL, Oracle, MongoDB                                  |
| <b>Operating Systems:</b> | Unix/Linux, Windows, Mac OS                             |
| <b>Frameworks:</b>        | React, Angular (Beginner), Express.js., Node.js, Vue.js |
| <b>Tools:</b>             | MS Office, Visual Studio Code, Jira, GitHub             |

## EDUCATION

---

|  |                      |
|--|----------------------|
| <b>Software Engineering Technology - Artificial Intelligence Advanced Diploma</b><br>Centennial College, Toronto, ON | Sept. 2022 - Present |
| <ul style="list-style-type: none"><li>• GPA of 4.2/4.5 (A)</li></ul>   |                      |

### *Relevant Courses Include:*

|                         |                                       |                      |
|-------------------------|---------------------------------------|----------------------|
| Programming (C#)        | Software Requirements Engineering     | Web Interface Design |
| Java Programming        | Web Application Development           | Database Concepts    |
| Software Systems Design | Foundation of Artificial Intelligence | Unix/Linux OS        |

## ACADEMIC PROJECTS

---

### Personal Expense Tracker (React, Node.js, Express.js, MongoDB)

- Utilized MERN stack to construct a highly responsive and dynamic solution
- Gained proficiency in full-stack web development and the design of RESTful APIs

### Personal Braiding Portfolio Website (HTML5, CSS3, JS)

- Developed a responsive website for a professional hair braider
- Integrated HTML5, CSS5, 3D and JS to create a visually appealing website that can enhance user experience and engagement

### Inventory Management Application (C#, MySQL)

- Developed a robust inventory management application, optimizing inventory tracking and management
- Designed and implemented a user-friendly graphical user interface (GUI)

### Banking Application (Java, MongoDB)

- Created a feature-rich banking application in Java, utilizing MongoDB for robust data security
- Incorporated banking features (account management, secure transactions and user verification)
